

6516205716.txt

As a registered and active voter, I would respectfully ask that you please reject NAB's petition 04-160. I feel like I should have to right to choose who provides me with information and it should not be allowed to be delivered by ONE method!! By limiting us to one method of access, you are in essence creating and supporting a monopoly for the provider of this information.
Thanks.
